These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Valuation of Inventories</p> <p>Refer to note 6 to the financial statements.</p> <p>The value of inventory is a key audit matter due to involvement of high risk, basis the nature of the food industry wherein value per unit is relatively insignificant but high volumes are involved which are dispersed across different point of sales .</p> <p>Our audit procedures on the valuation and existence of inventories consisted mainly of the following:</p>	<p>We obtained assurance over the appropriateness of the management's assumptions applied in calculating the value of the inventories and related provisions by:</p> <ul style="list-style-type: none"> • Completed a walkthrough of the inventory valuation process and assessed the design and implementation of the key controls addressing the risk. • Verifying the effectiveness of key inventory controls operating over inventories; including sample based physical verification.

- The inventories of the Company amounted to ₹4839.15 lakhs as on 31st march 2024.
- Our audit of inventories was focused around the risk that there would be a material misstatement relating to the existence of inventories and that the valuation of inventories which involves judgement of the management.
- According to the standalone financial statements' accounting policies in note 45 (2.2) to the financial statements, inventories are measured at the lower of cost or net realizable value. The company has procedures for identifying risk for obsolescence inventories based on estimated usage and shelf life of products.
- To ensure that all inventories owned by the entity are recorded and recorded inventories exist as at the year-end and valuation has been done correctly.

B. Revenue Recognition

Refer to Note 22 to the financial statements.

The revenue of the Company consists primarily of sale of food products that are sold through distributors, modern trade and direct sale channels amongst others. Revenue is recognized when the control of products is transferred to the customer and there is no unfulfilled obligation. Depending on the contractual terms with the customers, this can be either at the time of dispatch or delivery of goods.

The Company has large number of customers and the sales contracts with customers have different terms relating to transfer of control of underlying goods and the right of return.

Owing to the volume of sales transactions, size of the distribution network and varied terms of contracts with customers, revenue is determined to be an area involving significant risk in line with the requirements of the Standards on Auditing and hence, requiring significant auditor attention.

- Verify that the adequate cut off procedure has been applied to ensure that purchased inventory and sold inventory are correctly accounted.
- Reviewing the document and other record related to physical verification of inventories done by the management during the year.
- Verify that inventories are valued in accordance with IndAS 2
- As for the valuation of inventories, we assessed and reviewed the controls relating to valuation. For materials and supplies, we compared the price recognized in the balance sheet to the latest purchase invoice, to ensure that the inventory of materials and supplies is valued in accordance with the accounting policies applied.
- Verifying for a sample of individual products that costs have been correctly recorded.
- Comparing the net realisable value to the cost price of inventories to check for completeness of the associated provision.
- Reviewing the historical accuracy of inventory provisioning and the level of inventory write-offs during the year.

Our Conclusion:

Based on the audit procedures performed we did not identify any material Exceptions in the Inventory valuation.

Our key audit procedures around revenue recognition included, but were not limited to, the following:

- Assessed the appropriateness of the revenue recognition accounting policies of the Company including those relating to rebates and trade discounts, by evaluating compliance with the applicable accounting standards;
- Performed substantive testing on selected samples of revenue transactions recorded during the year by testing the underlying documents including contracts for conversion charges and soudha settlement, invoices, goods dispatch notes, shipping documents and customer receipts, wherever applicable;
- Performed analytical review procedures on revenue recognised during the year to identify any unusual and/or material variances;
- Performed confirmation and alternative procedures on selected invoices outstanding as at the year-end; and examining whether money is actually received or income is reversed back in case of settlement contracts;

<p>The management is required to make certain key judgements around determination of transaction price in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers along with Conversion Charges and settlement of Soudha on cancellation of the contract, and on account of consideration payable to customers in the form of various discount schemes, returns and rebates.</p> <p>The Company and its external stakeholders focus on revenue as a key performance indicator and this could create an incentive for revenue to be overstated or recognized before control has been transferred. Considering the aforesaid significance to our audit and the external stakeholders, revenue recognition has been considered as a key audit matter for the current year's audit.</p>	<ul style="list-style-type: none"> • Tested a select sample of revenue transactions recorded before the financial year end date to determine whether the revenue has been recognised in the appropriate financial period; • Examine a sample of manual journal entries posted to revenue ledgers to identify any unusual items; and • Evaluated the appropriateness and adequacy of disclosures in the financial statements in respect of revenue recognition in accordance with the applicable requirements. <p>Our conclusion:</p> <p>Based on the audit procedures performed we did not identify any material exceptions in the recognition of revenue and incentives and discount expenses.</p>

The Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Standalone Financial Statements

The Company's Management and Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting standards (Ind AS) prescribed under section 133 of the Act, read with the Companies (Indian Accounting standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection, application, implementation and maintenance of appropriate of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management and Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur

and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. According to the information and explanation given to us and based on our audit, the following material weaknesses have been identified as at March 31st, 2024

- a) ***The company did not have an appropriate internal control system for obtaining external balance confirmation on periodic basis. This could potentially result in inaccurate assets and liabilities disclosed in the books of accounts.***

A "material weakness" is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

Qualified Opinion

In our opinion, except for the effects/possible effects of the material weaknesses described above on the achievement of the objectives of the control criteria, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have considered the material weaknesses identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2024 standalone financial statements of the Company, and our aforesaid report and opinion on Internal Financial Control over Financial Reporting should be read in conjunction with our report of even date issued on the standalone financial statements of the Company.

(ii) Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- (a) Debt instruments measured at amortized cost using the effective interest rate method and losses arising from impairment are recognized in Profit and Loss if both the following conditions are met:
 - The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

As a practical expedient, the Company uses historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates to determine impairment loss allowance on portfolio of its trade receivables.

B. Financial Liabilities:

- i) **Classification as debt or equity** - Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.
- ii) **Equity instruments** - An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.
- iii) **Initial Recognition and Measurement:**

All Financials Liabilities are recognized net of transaction costs incurred.

iv) Subsequent Measurement-

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate ("EIR") method. Gains and losses are recognised in profit or loss when the liabilities are derecognised through the EIR amortisation process.

v) De-Recognition

All Financials Liabilities are removed from balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.
